

The Youth Partnership

Are putting The Wheels in Motion for our

Hoyland Bike Stop Project 2018

Blacker Hill Community Hub, Wentworth Road Blacker Hill Barnsley S74 0RL

Our aim is to provide a valuable and empowering service run by young people for the wider community of Hoyland and Barnsley. Through the founding and development of a sustainable community bike project that encourages participation in practical, physical and learning activities.

This will be achieved in a non-judgemental, vibrant and supportive voluntary environment that encourages and promotes participation, involvement and skill sharing. Whilst offering the users opportunities to be more active and health conscious through participation in cycling and organised cycling events and activities.

The project will also aim to become sustainable in the long term by upcycling bikes promoting the ideas of reuse within our community and offer an alternative to simply buying new. The success of the project relies upon working with the whole community and we are committed to making this project open and inclusive to all.

The project aims to offer:

- Bike safety training.
- Bike maintenance training.
- Create and develop family bike activities.
- Identify and set up bike rides, routes and maps.
- Up-cycle old bikes to help others.

Provide opportunities for people to:

- Be part of the project through Volunteering.
- To support positive youth action and activities.
- To get young people and families active and involved.
- Be involved in physical activities that keep us fit.
- To learn new skills.
